

POSTERS

Product Description/Use

Our **Premium 220gsm Poster Paper** is suitable for poster frames, displays, point of sale, and fine art applications. The superb bright white satin finished paper produces excellent colour vibrancy and consistency. It has a PE backing allowing superb lay flat stability, water resistance and resisting blocking when stacking.

Over laminating will provide extra strength but is not always necessary.

We can produce any size and colour or any quantity you need.

QUALITY ASSURED-SERVICE GUARANTEED
